Ferlib 12g F VII Boxlock Ejector

Serial Number 33391

$6000.00

Description

Made by Libero Ferraglio using an Anson & Deeley Scalloped Boxlock action that has a slightly bolstered action flat and raised side panels. Action is fitted with a non-automatic safety, two triggers (front blade is spring loaded) and a spindle toplever. Action is brushed bright and hand engraved in a full coverage small arabesque scroll and signed “BoE- D”.

Straight hand grip has a thin leather pad and traditional drop points and the splinter forend has an Anson push rod release. Both are nicely finished and have a very well cut and tight checkering. The LOP is 14 5/8” and the stock oval remains blank.

Chopper lump barrels are 28”, choked .005” and .012” and have 2 ¾" chambers (70mm) with a raised and matted, concave rib. The forend is fitted with Southgate type ejectors that are strong and well timed.

Overall the condition of the gun is very good to excellent with only a few small handling marks on the stock. Bores are perfect and the barrels only have a few, insignificant marks in the barrel black.

This is a very well made, *Best* quality boxlock ejector that represents a lot of value at this price point. The gun is lively in the hands, in wonderful condition and is ready to hunt.

Specification
