

Duane Wiebe .500 Jeffery Custom Mauser
Serial Number 0215
\$20000.00

DESCRIPTION

Duane Wiebe Custom Rifle chambered in .500 Jeffery. Based on an *Argentino Modelo 1909* Mauser action welded up into a single square bridge. The rifle has a flag safety, two recoil bars with engraving on the cross bolts and action screws. The drop-box straddle floor plate, with an inside-the-bow release, allows for 5 rounds down allowing you to cleanly chamber the 5th round; quite a feat to accomplish with this large cartridge.

The action's bridge is fitted with a dovetailed ghost ring sight adjustable for windage. The 24" barrel has sleeved on island rear sight with 1 gold lined, folding leaf rear sight that lays flat for the peep, and a banded/hooded front sight with brass bead front sight. The barrel is also fitted with a barrel band sling swivel.

Nice, straight grained English walnut stock has a right-hand, "kidney" shaped, beaded cheekpiece, ebony forend tip, an inletted rear swivel, and a 14 1/8" LOP over a Silver's type pad. Expertly checkered, flat top checkering has Mullered borders.

Rifle is in superb overall condition and feels excellent in the hands; the overall quality quite evident.

SPECIFICATION

Location	US
Make	Duane Wiebe
Calibre/Gauge	.500 Jeffery
