

Gunwerks 28 Nosler ClymR Lightweight Long Range
Serial Number F2087
\$9000.00

DESCRIPTION

Gunwerks 28 Nosler ClymR Ti Light Weight Long Range Rifle System available for immediate delivery and well below replacement costs.

Chambered for the .28 Nosler and pushing a 180gr Berger Hybrid just over 2,900 fps, the ClymR rifle system is based on the Gunwerks GLR right-handed action and ordered in titanium (Ti) as an upgrade. Gunwerks' hinged floorplate and 22" barrel with removable Directional muzzle brake (barrel extends to 22 1/2" over the muzzle brake, measured from the front of the action).

The stock has a 13.5" LOP on the unique ClymR system stock. The innovative stock shape has a negative comb, flat toe line, and improved ergonomics which encourage proper grip technique and improve recoil control.

Rifle is also fitted with its factory installed Kahles K318i 3.5-18x50mm CCW MOAK rifle scope with illuminated reticle in the first focal plane and LH wind adjustment and custom BDC turret cut for the 180gr Berger Hybrid factory loaded ammo also included with the rifle. The scope is mounted with Gunwerks 34mm Unity light weight scope rings with integral mounts.

Action, bottom metal, and muzzle brake are finished in Forrest Green and the stock has a matching Carbon Forest stock paint.

Rifle weighs 8 lbs. 3.8 oz. scoped.

Also included 100 rounds of new Gunwerks .28 Nosler ammo loaded with the 180gr Berger Hybrid at the time the rifle was ordered.

Scope turret is cut for the above listed load and an Altitude of 4,000 ft and a temperature: 60 F.

Rifle is complete in its Gunwerks' SKB case with custom fitted interior.

Rifle was ordered new in 2021 and has under 100 rounds fired since delivery. This rifle system with factory new ammo is in stock and ready for immediate delivery.

Will consider selling without optics. Please call to discuss.
